

SUMMARY

Results-driven software engineer with a comprehensive skill set, adept at managing projects from inception through post-launch maintenance during the whole Software Development Lifecycle. Proficient in developing engaging user interfaces and efficient programming solutions. Committed to improving existing projects and creating cutting-edge financial software solutions to enhance user acceptance and satisfaction. Expert in Core Java, Spring Framework, Hibernate ORM, Bootstrap, and jQuery, delivering robust, user-centric applications with seamless functionality and optimal user experience. Demonstrated success in collaborating with cross-functional teams to drive project completion, consistently exceeding client expectations.

EXPERIENCE

- **Nucleus Software Exports Limited** Noida, India
Software Engineer *Oct 2023 - Present*
 - Developed and implemented the GetLoanDetails API for ICICI Bank, delivering the project 2 weeks ahead of schedule and achieving a 100% pass rate on quality checks. Received the Spot Award for outstanding performance.
 - Created and deployed the Loan Bulk Upload feature via CSV using Spring Batch, reducing loan booking time from one week to a few seconds. Optimized performance by 30% and successfully deployed it in ICICI Bank's environment.
 - Designed and implemented OTP-based Multi-Factor Authentication for LDAP users at ICICI Bank, prioritizing security and adhering to best coding practices.
 - Contributed to API developments for ICICI Bank's CAS (Customer Acquisition System) and LMS (Loan Management System) modules. Responsible for deploying WAR files on WebLogic, resolving Java code and database issues, and managing tasks using Jira and SonarQube.
- **Nucleus Software Exports Limited** Noida, India
Assistant Software Engineer *Jan 2023 - Sept 2023*
 - Gained extensive knowledge in SQL, PL/SQL, Core Java, Servlets, JSP, and the Spring Hibernate framework. Recognized as a Top Performer during a 2-month training period.
 - Demonstrated skills by creating and implementing complex software solutions during training, including "Maker Checker" and a multi-module project using Spring and Hibernate. Achieved an outstanding A grade.
 - After training, joined the critical ICICI Bank team and developed various enhancements and change requests, including PSL, Sol ID, RS Field, and URN changes.
 - Proficient in Core Java, Spring Framework, Hibernate ORM, Bootstrap, jQuery, WebLogic, PLSQL, Jira, and SonarQube.

PROJECTS

- **Maker Checker System (Multi-Module Project)** : Developed a comprehensive Maker Checker System using Core Java, Spring Framework, Hibernate ORM, Bootstrap, and jQuery. Implemented role-based access control, efficient transaction management, dynamic UI, and audit logging .
- **Kuber Group**: Open source web-based messaging platform for faster secure and reliable communication using React Js and Firebase
- **Alone Media** : A web-based social media platform using PHP and My SQL + other relevant tools
- **Codehare** : A web platform for storing and sharing code snippets, notes, etc., using PHP, JavaScript, and MySQL .
- **Smart Face Monitor** : Python-based system for facial recognition attendance tracking using OpenCV .

CERTIFICATIONS

- **Innovitt Global** : Java Summer Training
- **Coursera**: Google Data Analytics
- **HackerRank** : JavaScript (Basic)
- **Integral University**: Python: Project Development

EDUCATION

- **Integral University** Lucknow, India
Bachelor's of Technology in Computer Science and Engineering CGPA: 8.85 Aug. 2019 – July. 2023
- **Bright Way Inter College** Lucknow, India
Intermediate; Percentage: 86 April 2016 – March. 2017
- **Bright Way Inter College** Lucknow, India
High School; CGPA: 8.6 April 2014 – March. 2015

PROGRAMMING SKILLS

- **Languages**: Core Java, Oracle SQL, PL SQL
- **Frameworks**: Spring, Spring boot, Hibernate
- **Libraries**: React
- **Tool**: Postman, Eclipse, IntelliJ, SonarQube, RestAPI, SoapUI
- **Web Tools**: HTML, CSS, Js, JSP
