Experience

Senior Software Engineer

Noida, India

Nucleus Software Exports Limited

Apr 2026 - Present

- Spearheading FinnOne NEO LMS modernization (v3.5 → v9.0) for ICICI Bank — driving full-stack upgrades across Java/Spring architecture, Oracle database schemas, and production WebLogic infrastructure.
- Sustaining 100% incident resolution TAT by orchestrating zero-downtime deployments and proactive production monitoring for mission-critical banking operations.
- Accelerating team capability by mentoring junior engineers through structured code reviews, weekly tech talks, and SonarQube quality gate enforcement.
- Reducing delivery risk by partnering with ICICI Bank stakeholders, QA, and BAs to transform evolving compliance mandates into audit-ready Java/Spring/Hibernate solutions.

Software Engineer

Noida, India

Nucleus Software Exports Limited

Oct 2023 – Mar 2026

- Achieved 100% QA pass rate by architecting 10+ RESTful Spring Boot APIs — delivered 14 days ahead of schedule, earning the 2024 Spot Award for technical excellence.
- Reduced operational costs by 80% and slashed loan booking latency from 1 week to sub-second by engineering a high-throughput Bulk Upload pipeline with Spring Batch and Hibernate ORM
- Achieved 100% institutional security compliance by integrating OTP-based MFA for LDAP-authenticated users on ICICI Bank's FinnOne NEO platform.
- Maintained 100% incident TAT across all sprint releases by managing WebLogic WAR deployments and enforcing SonarQube code quality gates, driving production defect leakage to zero.

Assistant Software Engineer

Noida, India

Nucleus Software Exports Limited

Jan 2023 - Sept 2023

- Earned 'A' grade in 8-week intensive onboarding by independently architecting a Maker-Checker multi-module system using Core Java, Spring Framework, and Hibernate ORM with RBAC and ACID transactions.
- Reduced L2/L3 escalations by 30% by engineering precision code patches and strategic customizations for the ICICI Bank FinnOne NEO production environment.
- Accelerated change-request delivery by directly translating ICICI Bank system flows and data usage patterns into scalable Java/Spring solutions collaboratively with end-users.

Summary

Results-driven software engineer with a comprehensive skill set, adept at managing projects from inception through post-launch maintenance during the Software Development Life Cycle. Proficient in developing engaging user interfaces and efficient programming solutions. Committed to improving existing projects and creating cutting-edge financial software solutions to enhance user acceptance and satisfaction. Expert in delivering robust, user-centric applications with seamless functionality and optimal user experience. Demonstrated success in collaborating with cross-functional teams to drive project completion, consistently exceeding client expectations.

Projects

-
- **Maker-Checker System:** Achieved enterprise-grade security by building a multi-tier app using Core Java, Spring Framework & Hibernate ORM with RBAC, ACID transactions, audit logging, and a Bootstrap/jQuery frontend.
 - **3-Way File Comparison Tool:** Developing an interactive web utility for complex three-way text comparisons, streamlining conflict resolution and peer code-review workflows.
 - **Kuber Group (Real-Time Messaging):** Achieved low-latency real-time communication by engineering an open-source platform using React.js and Firebase with secure data architecture.
 - **Smart Face Monitor:** Eliminated manual attendance overhead by automating identity verification using Python and OpenCV facial recognition algorithms.

Education

Integral University

Bachelors of Technology in Computer Science and Engineering **Grade: 8.85/10**

Lucknow, India

Aug. 2019 – July. 2023

Certifications

- **Java Summer Training** – Innovitt Global
- **Google Data Analytics Professional Certificate** – Coursera
- **JavaScript Certification** – HackerRank
- **Python Project Development** – Integral University

Technical Skills

- **Core Expertise:** Java, Sprin, Spring Framework, Spring Batch, Spring Data JPA, Hibernate ORM
- **Languages:** Java, SQL, PL/SQL
- **Databases:** Oracle SQL, SQL Plus, MySQL
- **API & Integration:** RESTful APIs, Postman, Maven
- **DevOps & Tools:** Git, GitLab, JIRA, SonarQube, IntelliJ IDEA, WebLogic Server
- **Web / UI:** HTML5, CSS3, JSP, jQuery, Bootstrap, React.js, Next.js, Material UI, Shadcn UI
- **Methodologies:** Agile, SDLC, RBAC, LDAP/MFA, Code Review, Audit Logging

Achievements

- Spot Award, Nucleus Software Exports Limited (2025).
- Spot Award, Nucleus Software Exports Limited (2024).
- Excellence Award, Nucleus Software Exports Limited (Sep 2023)
